_ story

I love to build things that matter. I'm a trained and licensed Architect (buildings, not software). For ~8 years I helped build megaprojects in the US and Middle East. The following ~7 years took me into construction technology where I energized the Product function for multiple early-stage companies.

_ experience

studio 3J _____ founder + architect _ 2021-now

climate-first architectural practice delivering sustainable and affordable housing in the phoenix metro

arcsite _____ head of product + pm _ 2022-2023

first product hire. formed company strategy, OKR program, established metrics and analytics best practices, doubled app store rev, doubled b2b rev, doubled csat

product(s): iOS/Windows/Android CAD and estimating

1build _____ head of product + pm _ 2021-2022

first product hire. delivered the first commercial release. established product function, processes, and best practices, e.g. agile-lite. helped company go from seed through closing series A

product(s): web app + api, construction takeoff and estimating with live cost data

mosaic _____ sr product manager _ 2019-2021

employee #8 at greylock and a16z backed startup. swiss-army knife. led product dev, hands-on with users in the field building homes with our tech (and my own 2 hands). my work was instrumental in closing a mega series A.

product(s): web/mobile app. reinvented construction drawings purpose-built for trades. construction OS.

ineight _____ director product strategy _ 2018-2019

\$100MM ARR SaaS, led global product strategy, partnerships, launched integration [marketplace](#), oversaw several acquisitions boosting ARR by 30%

superpowers _

design
setting metrics
problem definition
written communication
Prioritization
abstraction

product(s): web/mobile app. comprehensive management platform for capital projects. estimating, scheduling, cost, BIM,...
